## PROFILE SUMMARY

I am a skilled frontend developer specializing in creating visually engaging and high-performance web applications that provide seamless user experiences. I am eager to further enhance my abilities and contribute meaningfully to the success of the organization I work with, while consistently delivering quality results.

## SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Redux Toolkit (RTK), Redux, React Router, React Hooks, React Icons, Axios, Swiper.js, Notistack
- **Styling & Design:** SASS, Material UI, Tailwind CSS, Bootstrap, Responsive Designing
- **APIs & Middleware:** JSON, RESTful APIs
- **Developer Tools:** Git, Webpack, Redux Devtools, React Developer Tools, Postman, Visual Studio Code, Jira, ngrok

## EXPERIENCE

- **Nagarro Software Pvt. Ltd.** Sep 2022 - Jun 2023  
*Associate Engineer* Noida, Uttar Pradesh, India
  - Worked in agile development with the team of 7 people to develop **Open Banking System** from scratch.
  - Engineered the frontend of the **User Profile Module** using **React.js** and **REST APIs**, creating a cohesive sequence of 4 Interconnected pages.
  - Offered strategic insights and constructive feedback for the **OTP Authentication** Feature inside a module of **Open Banking System**.
- **Nagarro Software Pvt. Ltd.** May 2022 - Sep 2022  
*Trainee* Noida, Uttar Pradesh, India
  - Trained on different tech stacks including, **HTML5, CSS3, JavaScript, React.js, react-redux, Material UI** etc.
  - Developed 4 to 5 mini-projects, including a **Weather Checker** and an **E-commerce Frontend**, utilizing **React.js** and **Redux**.
  - Did **on-time completion** of every project given to me with keeping **quality** in check.

## PROJECTS

- **Medify** [[Demo Link](#)] Sept 2024 - Sept 2024  
*Skills:* React.js, Material UI, React Router, React Hooks, Swiper.js, Axios, Notistack, Local Storage, Responsive Design [🔗]
  - Designed and developed a medical slot booking website using **React.js, Material UI, React Router, Swiper.js, & axios** to provide an intuitive user experience.
  - Implemented a **dynamic search feature** using **Async Autocomplete Input Forms** enabling users to **find hospitals** by state and city through **API integration** using **axios**.
  - Focused on **responsive design, reusable components** and **performance optimization** for seamless multi-device access.
- **QKart** [[Demo Link](#)] July 2024 - Aug 2024  
*Skills:* JavaScript, React.js, Material UI, React Router, React Hooks, Local Storage, Debouncing, Responsive Design
  - Built a single page application using **React.js** and utilized **Rest APIs** for **dynamic data-loading & conditional rendering** different components.
  - Improved UI by adding **responsive design** elements for a uniform experience across different devices using **Material UI**.
  - Incorporated **debounce search** functionality into the search box to optimize product searching, reducing server load & load enhancing user experience.
- **Open Banking System** Oct 2022 - June 2023  
*Skills:* JavaScript, React.js, Bootstrap, React Redux, React Router, React Hooks, Local Storage, Responsive Design
  - Developed UI for the **Open Banking System's User Profile Module** from scratch while working in agile development.
  - Made use of modern tech stack including **HTML5, CSS3, JavaScript, React.js, react-redux, & Bootstrap**.
  - Offered strategic insights and constructive feedback for the **OTP Authentication** Feature inside a module of **Open Banking System**.

## EDUCATION

- **Institute of Engineering & Technology** Aug 2019 - June 2022  
*Master of Computer Applications (MCA)* Lucknow, U.P., India
  - **GPA:** 8.20/10.00
